WARNING: Information on this form may become public. Credit card information should not be included on this form. Provide credit card information and authorization on PTO-2038.

This collection of information is required by 37 CFR 1.17 and 1.27. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, Washington, DC 20231. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, Washington, DC 20231.

If you need assistance in completing the form, call 1-800-PTO-9199 (1-800-786-9199) and select option 2.

paragraph 24, lines 3-4. The vertical apertures are at angle of 70-90° from the horizontal viewing angle. Matera, paragraph 24, lines 9-11. The horizontal viewing angle is directed along a horizontal line extending from the eye through the lenses and out towards the horizon. Matera, Figure 8. Claim 50 is distinguishable from Matera at least because the angle of the aperture is approximately forty-five degrees, which is substantially less than the angle range of 70-90 degrees disclosed by Matera. For at least this reason, claim 50 is allowable over Matera.

Claim 51 is dependent from claim 50 and recites that the angle is approximately forty-five degrees. Support for this feature can be found on page 4, lines 13-23 and Figure 3 of the applicants' specification. Thus, no new matter has been added. Claim 51 is allowable at least because it is dependent from allowable base claim 50.

Claims 52-62 are substantially similar to claims 34-44. No new matter has been added. Claims 52-62 are allowable at least because they are dependent from allowable base claim 50.

Claim 61 recites eyewear wherein the width of the aperture is substantially equal to a thickness of the brow web. The applicants submit that that claim 61 is distinguishable from Harris, Hall et al. and Matera since they do not suggest or disclose, separately or in combination, any features pertaining to the width of the apertures in relation to the thickness of a brow web. For at least this reason claim 61 is allowable.

In view of the above, the applicants respectfully submit that all of the pending claims are now allowable. Allowance at an early date would be greatly appreciated. Should any issues remain, the examiner is encouraged to telephone the undersigned at (408) 293-9000 to discuss the same so that any outstanding issues may be expeditiously resolved.
